### **CEO Remarks and Outlook**

"Overall, we had a strong quarter and were able to overcome significant headwinds from weather, inflation and material supply issues to exceed our expectations," stated Joe Cutillo, Sterling's Chief Executive Officer. "In our Heavy Civil segment, we had a nice improvement in operating income on lower revenue as we continue to shift away from low-bid heavy highway projects to alternative delivery work. Our Specialty and Residential segments had year-over-year revenue improvements, but operating income slightly declined due to the headwinds mentioned. Even with the challenges faced in this quarter, all of our segments delivered very strong bottom-line results in comparison to our prior exceptional financial performance in the second quarter of 2020."

"Our Specialty Services segment continues to see strong end-market growth and deliver impressive results. Our Backlog continued to grow in the quarter with key wins with our core customers. In addition, our geographic expansion enabled us to bring on new customers that are expanding their e-commerce efforts."

"In our Residential segment, we continue to see record demand; however, our operating income in our Residential segment was down slightly year-over-year due largely to inflation and supply chain pressures. In addition to the supply chain issues, the inordinately wet weather during the quarter hampered our throughput and caused negative productivity. That said, we remain optimistic as the demand for new homes in Texas continues to outpace the rest of the U.S. Provided that the weather-related issues subside, we expect to catch up lost opportunities from the second quarter in the third quarter. Lastly, we recently expanded our geographic footprint into Phoenix, a Top Ten housing market in the U.S. Though it is early in the expansion process, we are excited about the potential this market has for our long-term growth."

Mr. Cutillo continued, "Our Heavy Civil segment's operating profit in terms of both dollars and margin was up, reflecting our continued shift away from low-bid heavy highway projects toward alternative delivery work. Alternative delivery project volumes were up this quarter as we moved out of the winter months. We expect that contributions from these projects will continue throughout the year. It is extremely satisfying to see the continued strong results of our multi-year strategy of shifting our project mix away from hard-bid heavy highway work towards alternative delivery jobs with higher margins and lower risk. These jobs allow us to leverage our experience, assets and skills to bring more value to our customers and shareholders."

"Our balance sheet, which has been a key area of focus, continued to improve in the second quarter. We generated cash flow from operations of \$91.5 million, which we deployed to pay down \$40.1 million of debt and invested \$22.2 million in capital expenditures. With our enhanced liquidity position during the second quarter, we were able to amend our Credit Agreement. The amendment decreased the interest rate on our loan by two percentage points and reduced our future mandatory quarterly payments from \$12.5 million to \$4.1 million through March 2023. Although we expect to pay more than our mandatory quarterly payments as we continue to focus on reducing our debt level, we feel that this amendment, and its unanimous approval by our syndicate, is indicative of the progress we have made in terms of profitability and cash flow generation. The amended agreement also provides us with even more financial flexibility, allowing us to continue to execute on our organic growth strategy and evaluate accretive acquisition opportunities. We continue to track acquisition opportunities that could add scale to our existing operations or add a new, margin accretive business segment adjacent to our core business. With respect to infrastructure funding, we are still optimistic that the current administration will pass a bill this year, as the FAST Act extension expires in September. As funding increases, we believe this will only enhance our positive long-term outlook."

Mr. Cutillo concluded, "Despite inflation, supply chain pressures and weather-related challenges this quarter, our first-half performance, elevated Backlog, strong end-market fundamentals in all three of our business segments and our enhanced financial profile make us confident in our ability to continue delivering shareholder value. Accordingly, we have updated our guidance to reflect our expectation for 2021 net income attributable to Sterling common stockholders to be between \$55 million to \$58 million."

This press release may contain "Non-GAAP" financial measures as defined under Regulation G of the amended U.S. Securities Exchange Act of 1934. The Company reports financial results in accordance with U.S. generally accepted accounting principles ("GAAP"), but the Company believes that certain Non-GAAP financial measures provide useful supplemental information to investors regarding the underlying business trends and performance of the Company's ongoing operations and are useful for period-over-period comparisons of those operations.

Non-GAAP measures may include adjusted net income, adjusted EPS, EBITDA and adjusted EBITDA, in each case excluding the impacts of certain identified items. The excluded items represent items that the Company does not consider to be representative of its normal operations. However, Non-GAAP measures should not be considered as substitutes for net income, EPS, or other data prepared and reported in accordance with GAAP and should be viewed in addition to the Company's reported results prepared in accordance with GAAP.
